Election/Restrictions

1. Claim 1 is allowable. The restriction requirement between Groups I, II, III, and IV, as set forth in the Office action mailed on November 23, 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a).

The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 2-6, 8, and 9, directed to a non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 1-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having the adjusting member comprising an adjusting screw which is screwed with the first member, the elastic member fitted over the adjusting screw and providing a biasing force acting in a
